

TECHNICAL DATA SHEET

GASOLINE TREATMENT

PRODUCT DESCRIPTION

Gasoline Treatment is a fuel additive that regulates compression and improves engine performance. Controls deposit, formation depends on the fuel quality, in fuel system (injectors, valves) and combustion chamber, provides engine start up be easy.

USAGE

- First put Gasoline Treatment and then add fuel.
- One bottle (300 ml) Gasoline Treatment treats up to 50 litres fuel.

TYPICAL PROPERTIES

Appearance		Light blue viscous liquid
Specific Gravity @15°C, kg/l	ASTM D 4052	0,823
Viscosity @40°C, cSt	ASTM D 445	2,7
V.O.C. % Ađ		<1.0
Inflammableness		Flammable

CHARACTERISTIC/ADVANTAGES

- Prevents formation of soot and carbon in valves and combustion chamber.
- Cleans valves and cylinder parts in contact with fuel.
- Improved drivability: smoother accelerations and idle: reduces tendency to stall.
- Controls corrosion, thus extends engine life.

HEALTH AND SAFETY RECOMMENDATIONS

It is flammable, so must be kept away from fire and sparks. Eye contact should be avoided. In case of eye contact, wash with plenty of water. If contact with skin, wash the area immediately with plenty of water and soap. In case of skin irritation or redness caused by contact, seek advice of your doctor immediately. For more information contact Material Safety Data Sheet (MSDS).

The vehicle and equipment manufacturers specifications and relevant international standards were taken into consideration while preparing the content of this Technical Data Sheet. The expressions in the content of this Technical Data Sheet can not be considered as guarantee commitment or similar way in terms of product characteristics and product use in any applications.

The correct use of this product, compliance with applicable laws and regulations is responsibility of the user. Opet Fuchs Madeni Yağ. San. ve Tic. A.Ş. can not be held responsible for any loss or damage arising from the abnormal use and misuse or any hazards of product content and its results.
